# **World (Holistic approach)**

Globalized environment

**Universe & Nature**

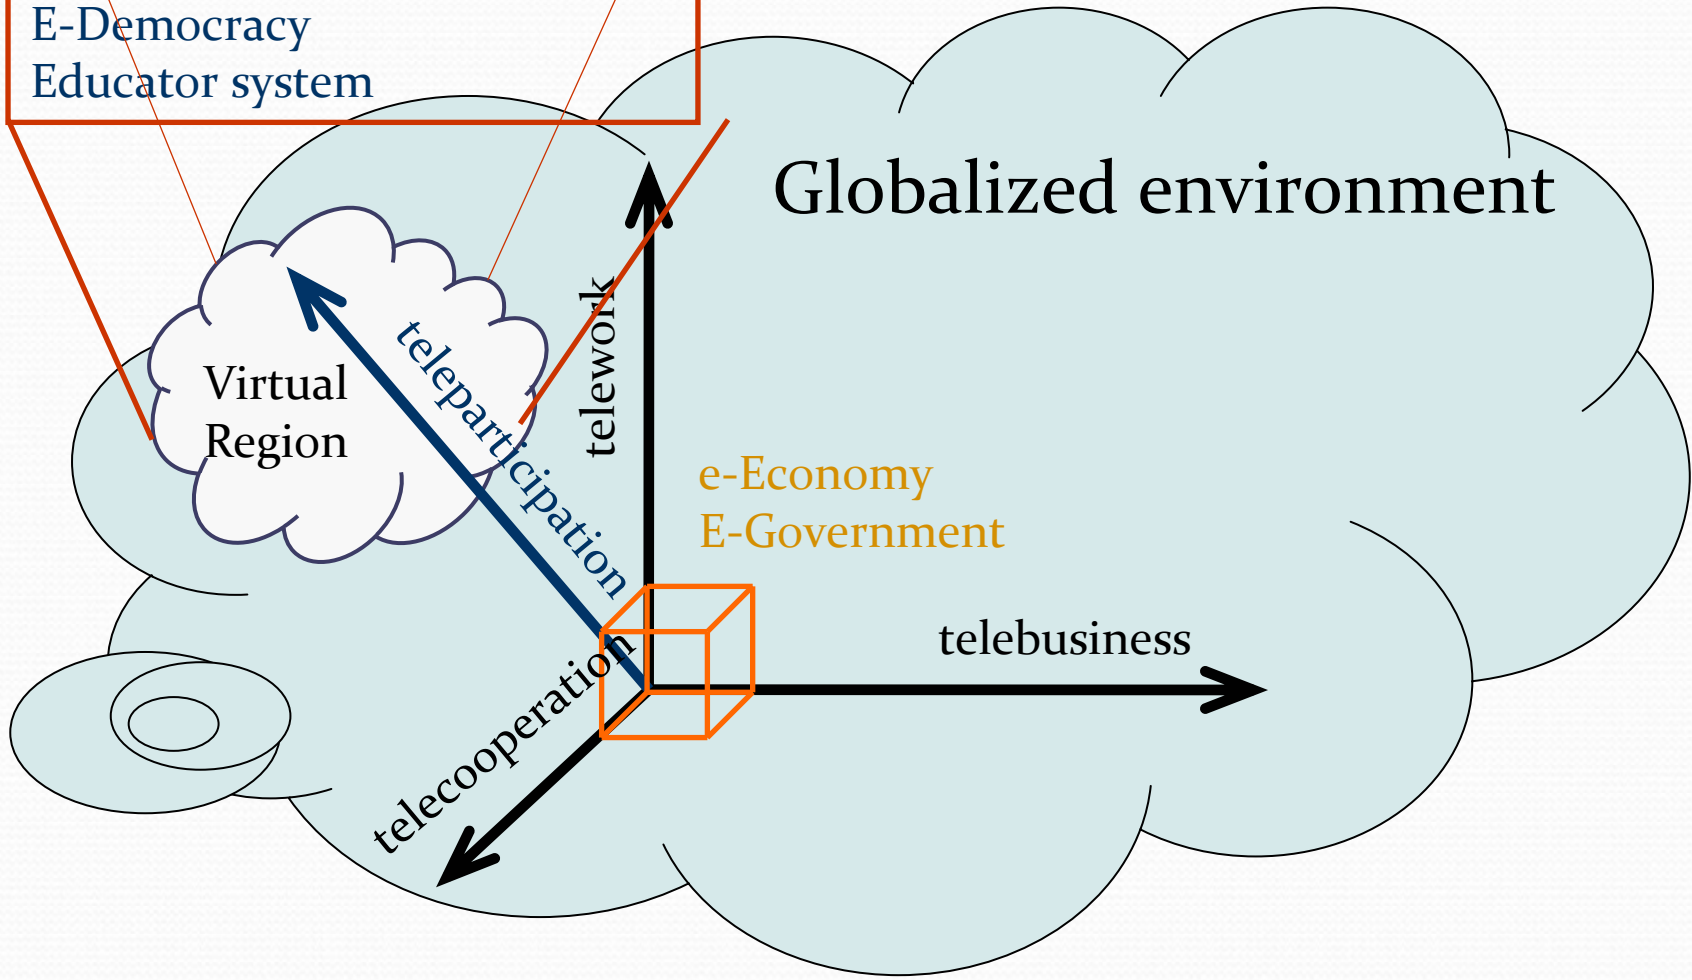

**Physical objects & Ideal forms**

**Information Society & e-Economy  
(Knowledge based economy)**

# World

## (Holistic approach)

- Self-organized
- Independent
- Set up managed by consortium
- Synergy and added value effect
- E-Democracy
- Educator system

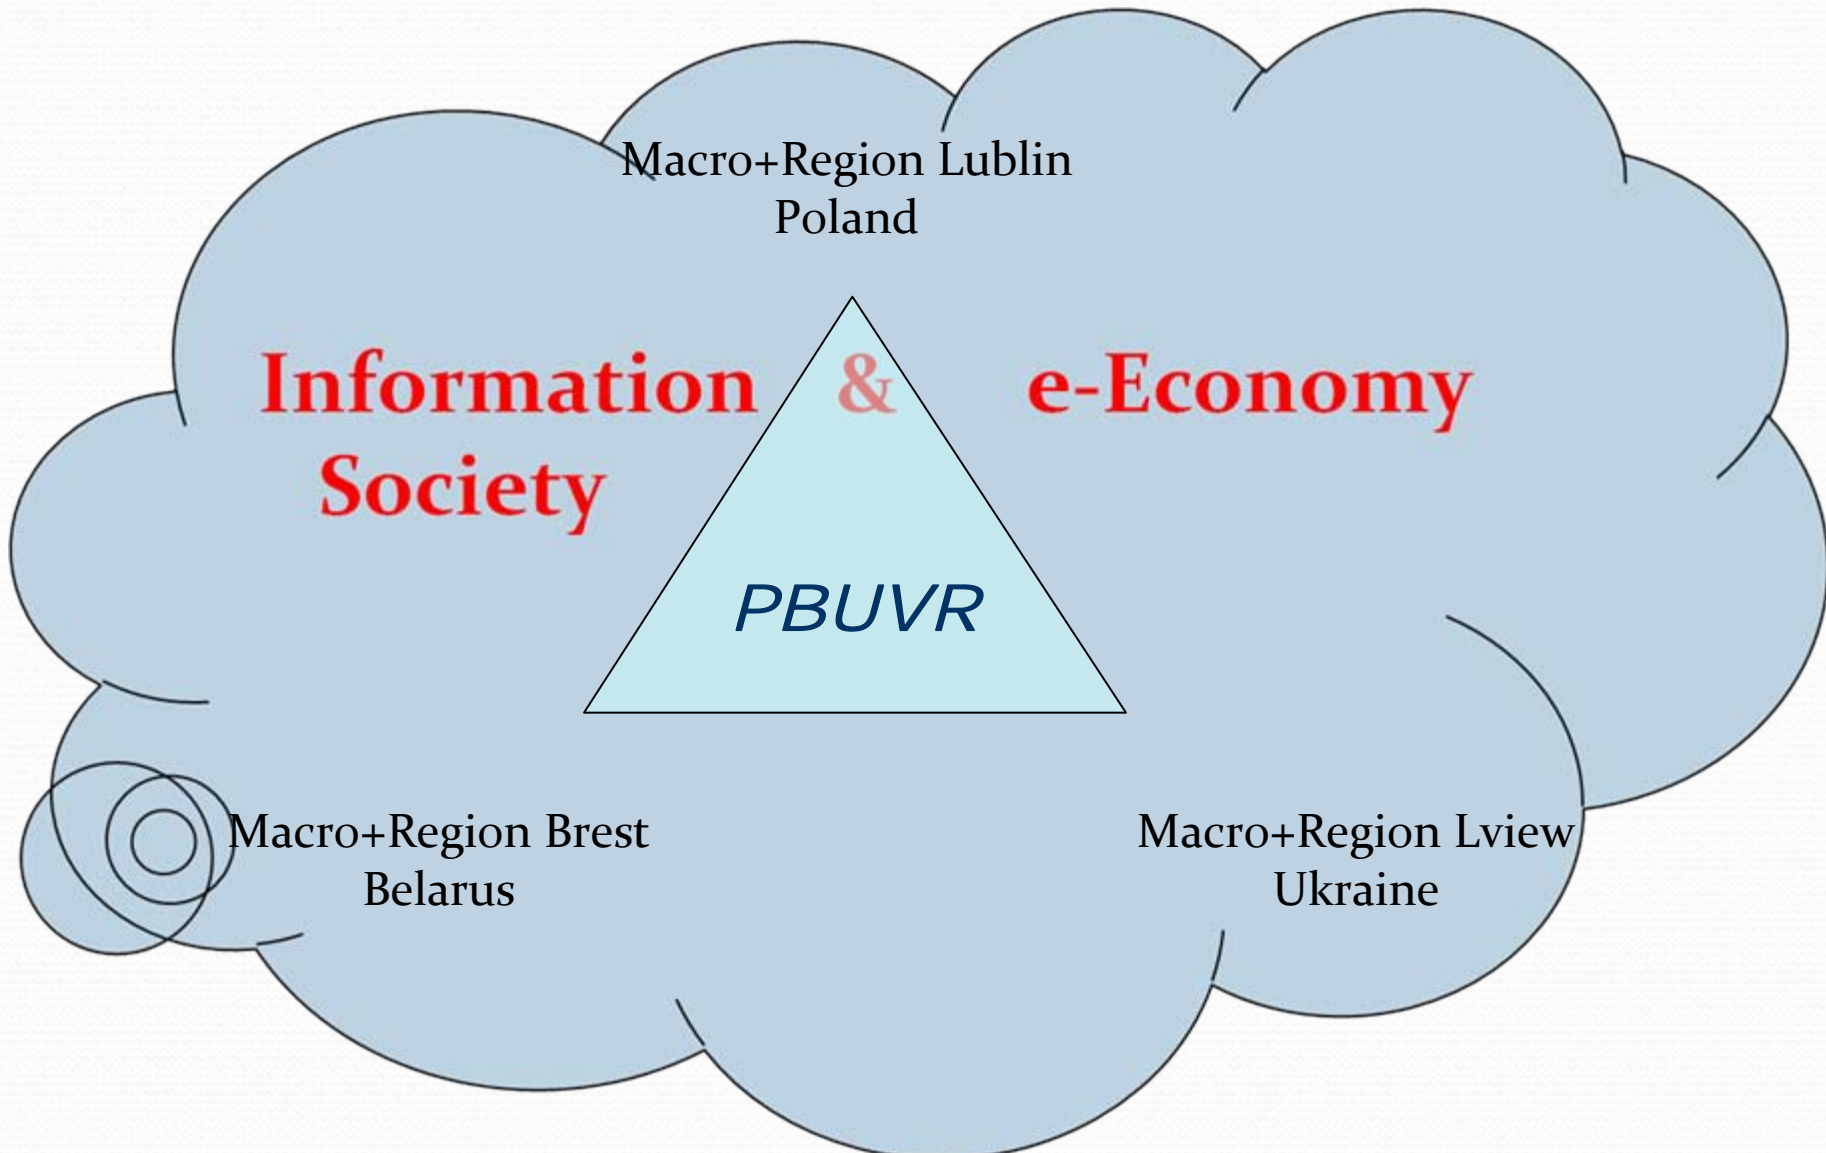

# What Virtual Region is in fact?

It is:

- Self-organized locally and/or globally
- Relatively independent from geographical and local government point of view but local region is following all obligatory laws and regulations
- Set up as well as it is managed by a specialized consortium
- The backgrounds for the consortium partnership are civil law agreements
- Synergy and added value effect are main motivation to common
- E-Democracy (transparency of administration and the clear acces to participaton in public decision-making)
- The Educator system is the way to accelerate and expand the e-marketplace

# Globalized environment

# V4 DIS & idea of PL-BY-UA Programme

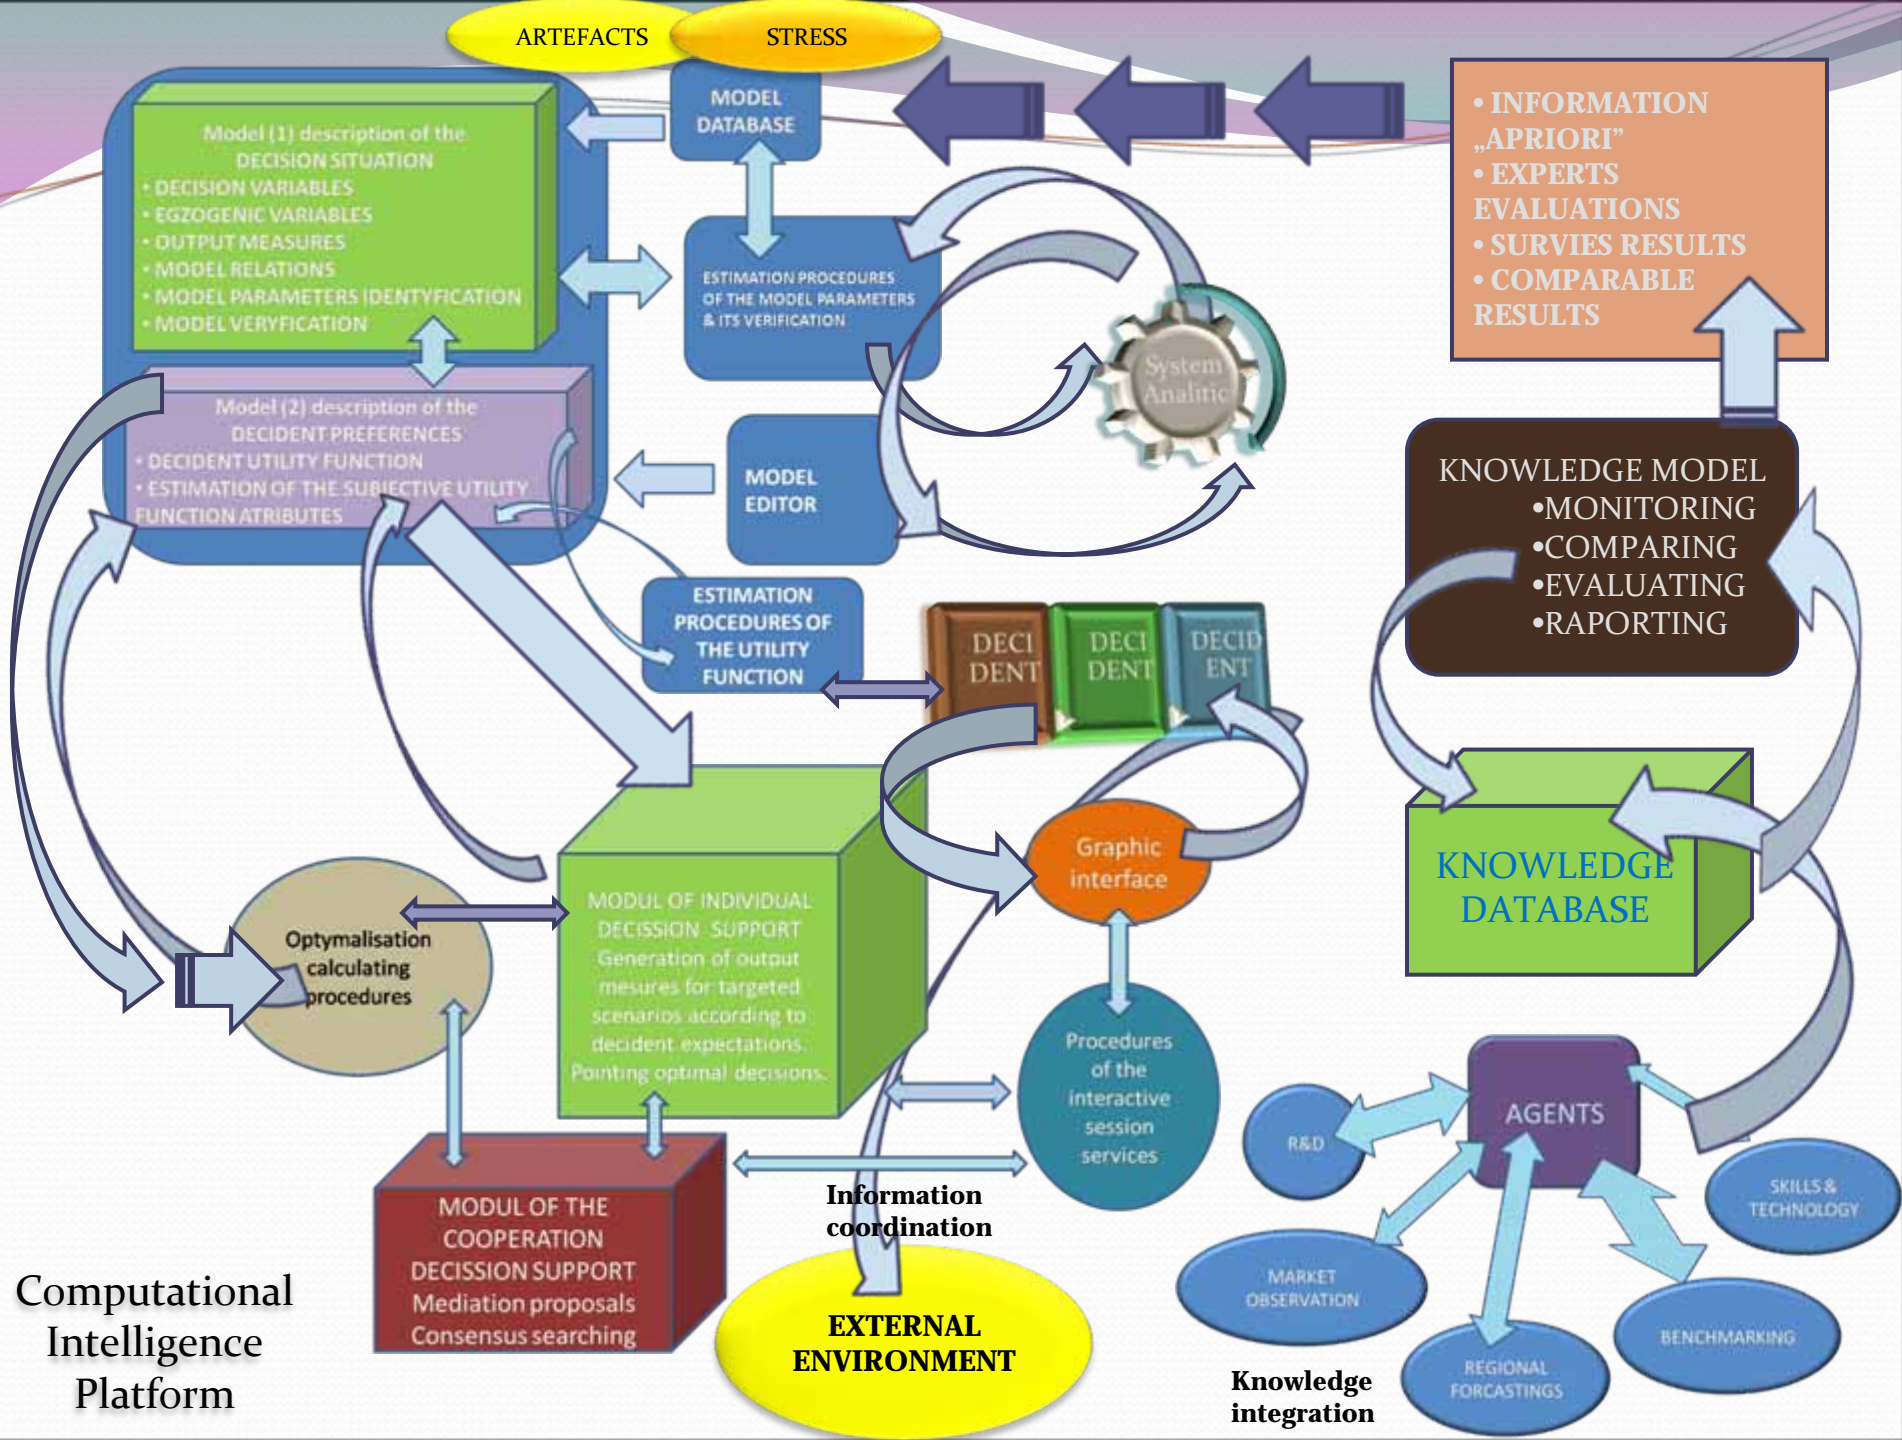

- In the common European area there is a separated subarea of the Central-Eastern Europe.
- In the frames of V4DIS mission, in which the attention is put on the field of V4 countries e-Government development on state and regional levels, there are also developed definitions and mechanisms of so called Virtual Region.
- Going forward with this concept of Virtual Region there is arising the need for development of connection between Central European e-Government with some examples of such system of e-Government, which could create a possibility to achieve social and economical goal in the frames of EU Operational Programme Poland-Bielarus-Ukraine.

# Key goals of PL-BY-UA Programme

- Encouraging the cooperation among the countries of Poland, Bielarus and Ukraine
- improving innovation
- improving accessibility
- improving the environment
- improving the competitiveness and attractiveness
- Continuation of INTERREG III project results

THANK YOU  
FOR YOUR
